# Word River

Word River is a new tool for teachers, researchers, and parents to help create, edit, and manage context packs that will be used to help to teach learners how to read!

Context Packs

Context Packs contain a variety of wordlists that all pertain to a certain topic of interest.

Create a Variety of Context Packs!

Learners may have a wide range of interests, and there is no one size fits all. So feel free to create a wide variety of context packs that suit each of your learners so everyone is happy!

### Tailor Your Learner's Experience to Match Their Interests!

Making something fun is an excellent way to get learners interested in the required material, and a great way to make something fun is to tailor their learning experience to match their interests. Batman fans can learn to read using words related to their favorite hero.

Create Wordlists on Your Own, or Use Sight Words!

Customize your wordlists in any way you see fit- stick with basic sight words, or a variety of words that are related to your pack.
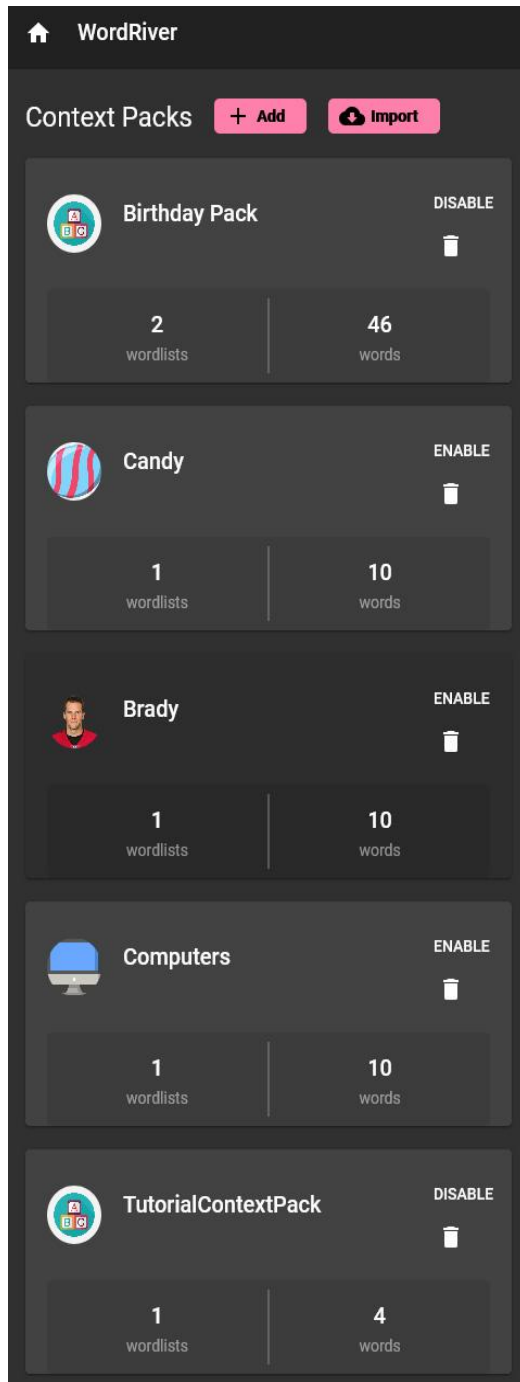

Create, Edit, and Manage With Ease!

Create a context pack from scratch or import a pre-made one. Edit the pack and wordlists long after you created them to keep them updated. Delete the ones that aren't as exciting anymore with little hassle.

Features

Word River is to be used in conjunction with an outside website to create, manage, import and export context packs. Word River has several helpful features to offer:

- **Easy to use-** With an intuitive design, users are not required to have any prior experience. Create and manage your context packs with ease.

- **Editing-** Want to add another wordlist? Want to change the name of a pack? No problem! Add, edit, delete, and rename wordlists and context packs whenever you need. These changes can be made when viewing the desired context pack.

- **Enable/Disable Options-** You may have an idea for a context pack but not want to use it right away. We've provided the option to enable/disable both context packs and wordlists with a simple toggle feature, so you can save it for the right time!

- **Import/Export Context Packs-** Import context packs for use and editing with just a few clicks. Once they're perfect, export them with little hassle.

- **Word Form Suggestions-** Save time when adding words with automatic word form suggestions, no extra clicking needed.

- **Tool Tips-** Avoid getting overwhelmed when looking at all the words thanks to the handy tool tips feature! Hover over a word to see all the forms of it.
